

ANT ZAP

TO KILL ANTS*

Active ingredients: Carbon Dioxide.....1 00.0%

Total 1 00.0%

KEEP OUT OF REACH OF CHILDREN

WARNING

Use with adequate ventilation outdoors. Close valve system when not in use and when empty. ANT ZAP gas being heavier than air tends to accumulate underground in the targeted mound and tunnel systems displacing air upward.

See First Aid Statement on Back Panel.

Net Wt. 1.6 lb.

EPA Reg. 87766-1

Establishment# 89962-TWN-001

Manufactured by Trifecta LLC,

P O Box 9825, Fayetteville, Arkansas 72703

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: May be fatal if inhaled. Do not breathe vapor. Exposure may cause suffocation and death. Liquid can cause frostbite. Do not get liquid on skin or in eyes. Exposure to high levels may occur without warning or detection by user.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Read all directions for use carefully before using this product

DO NOT REMOVE CYLINDER UNTIL PRODUCT IS EXHAUSTED.

*KILLS ANTS (excludes carpenter, harvester, fire, and pharaoh ants). This product must only be used to fumigate outdoor ant mounds. ANT ZAP acts by displacing oxygen and suffocating the listed target pests. Do not use this product in such a way that non-target animals will be exposed. General ANT ZAP set up: Secure the cylinder to the device by threading clockwise until there is no leakage.

Treatment of Ant Mounds

Step 1: Secure the cylinder on the applicator by threading clockwise to secure an airtight seal. ALWAYS HOLD CYLINDER UPRIGHT while in use. Step 2: A Small amount of talcum powder applied where probe meets shield greatly reduces the ant's ability to crawl up probe. Ensure holes on probe are below mound surface. Step 3: Treat each individual mound at Four (4) separate locations at 5 second intervals or until cylinder is completely exhausted. Step 4: The effects of ANT ZAP are immediate, but the soil conditions may effect the time needed for treatment. Additional applications may be needed based upon the size of the mound and activity of the ants.

FIRST AID

If Inhaled

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for treatment advice

Have the product container or label with you when calling a poison control center, doctor, or when seeking medical treatment.

For emergency information concerning this product, call the National Pesticide Information Center at 800-858-7378.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry area in original container. Store away from food and feed. Make certain that all valves are closed prior to storing the device.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. Replace only with ANT ZAP cylinders.

If partially filled: Vent unusable Carbon Dioxide out doors in a well-ventilated area.
